BENEFITS OF VENDELECTRIC...

...FOR YOUR BUSINESS/ORGANISATION

✔ You're In Complete Control

Unlimited use of an industry leading back-office platform enabling you to have full management and control of your entire EV charging network.

✔ Future-proof & Scalable Solution

Manage single or multiple charge points with the option to accommodate private network charging (staff members, fleet drivers etc), ensuring your chargepoints are secure from unauthorised usage. Add more EV charging points to your infrastructure as and when demand increases.

✔ Mapped Network

Complete mapped overview of your network as well as the ability to group your chargepoints at your premises/sites using the platform's interface.

✔ Customisable Tariffs

Operate your charging points via pay-to-charge, free-to-charge or BIK options. For example, you may wish to offer free charging to employees, whilst providing visitors with a pay-to-charge service.

✔ Generate Revenue

Immediate revenue stream by simply setting your own EV charging tariffs, with the ability to change as and when you wish to suit your business requirements. The revenue summary page provides you with a clear itemised overview of your generated revenue.

✔ Smart Reporting & Analytical Feedback

Full visibility of real-time chargepoint activity, monitoring and energy usage all at the click of a button, helping you understand charging behaviours and where further infrastructure is required. You can easily access and export all historic data and reports.

✔ Fleet Management Solutions

Ability to assign RFID card/fobs to drivers or vehicles which can then be used to authorise charging sessions. There is also the option to restrict chargepoints to specific VRMs (Vehicle Registration Marks), making the ideal solution for fleets.

✔ Automatic Fault Notifications

Fault notification feature allows the VENDELECTRIC team to provide support when required.

✔ Over The Air Updates

VENDELECTRIC's OCPP integration enables remote over the air firmware updates ensuring you're always on the latest version.

✔ Optional Electrical Load Management

Ideal for locations that require multiple EV charging points where the collective load may be greater than electricity supply. The optional load management feature ensures all charging facilities are available for use.

BENEFITS OF VENDELECTRIC...

...FOR THE EV DRIVER

✓ Easy To Operate

The EV driver plugs in to the chargepoint and activates their charging session by simply scanning the chargepoint's QR code using their smartphone's camera. Alternatively, they can enter the socket ID number via the VENDELECTRIC app or present their chargepoint host issued/personal RFID cards/fobs (eg. vehicle/charging network/security access).

✓ No Upfront Costs

There are no hidden fees, unnecessary charging network membership, subscription or connection fees.

✓ Secure Payment Platform

For chargepoints that are set to operate on a pay-to-charge tariff, the user pays for the charge advertised on the app using secure Visa, MasterCard and JCB payment methods via Opayo.

THE VENDELECTRIC APP FEATURES

DOWNLOAD THE APP

Locate & Navigate

Easy to find and navigate to a chosen charging point

My Favourites

Save your favourite charging locations for future use

Charge Sessions

View all of your current and past charging session information

Statistics & Analytics

Understand your EV charging activity/behaviour

Exportable Data

Ideal for submitting your benefit-in-kind claims

Live Notifications

Receive charging session notifications and alerts

Virtual Wallet

Top-Up a virtual wallet which makes activating a charge much quicker

Multi Vehicle Access

Multiple EVs can be added to a single registered account
